

# Tushal Joshi

Neemuch, Madhya Pradesh

joshitushal1@gmail.com • github.com/TushalJoshi

## EDUCATION

### B.Tech in Computer Science and Engineering (AI & Data Science)

Poornima University, Jaipur

Aug 2022 – Apr 2026

### 12th State Board Examination

Samta Vidhya Peeth, Jawad

June 2021 – Apr 2022

## PROFESSIONAL EXPERIENCE

### Web Developer

NavRasa IT Solutions, Jaipur

May 2025 – Present

- Developed and optimized responsive user interfaces using HTML, CSS, JavaScript, React.js, Next.js and Tailwind CSS.
- Integrated RESTful APIs and resolved client-side performance and rendering issues across multiple modules.
- Collaborated in Git-based version control workflows, participated in code reviews, and followed clean coding standards.
- Improved application performance by optimizing components, reducing unnecessary re-renders, and managing state efficiently.
- Implemented reusable components and modular architecture for scalability and maintainability.
- Gained backend development experience using Node.js and Express.js, understanding API structure and request/response lifecycle.
- Assisted in database integration and CRUD operations using MongoDB.
- Contributed to debugging API integrations and handling JWT-based authentication logic.
- Mentored junior developers in frontend best practices and basic backend concepts.

## TECHNICAL SKILLS

- |                                 |                           |
|---------------------------------|---------------------------|
| • HTML, CSS, Tailwind           | • REST API Authentication |
| • JavaScript, React.js, Next.js | • MySQL, MongoDB          |
| • Node.js, Express.js           | • Firebase, PostgreSQL    |
| • Python (Flask)                | • Git, GitHub             |

## TOOLS & PLATFORMS

- VsCode, CursorAI, GitHub, Vercel, Render, Cpanel, WHM, FileZilla

## PROJECTS

### School Management System — Full-Stack Web Application

React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Designed and developed a scalable full-stack School Management System with secure RESTful APIs and integrated online fee payment gateway.
- Implemented role-based authentication (Admin, Teacher, Student, Parents) with JWT authorization, attendance tracking, exam and result management, and fee management.
- Built modular, reusable frontend components with responsive dashboard UI and optimized performance.
- Developed backend using Node.js and Express.js with MongoDB for efficient data storage and retrieval.
- Focused on clean architecture, secure payment processing, API integration, state management, and scalability.

## ADDITIONAL PROJECT EXPERIENCE

- At my current company, successfully delivered **3 full-stack, production-ready applications**, including **CMS-ready Admin Panels** and **standard Admin Dashboards**.
- Developed **4 frontend websites** that are fully responsive, optimized for performance, and deployed for real-world production use.
- Designed and implemented **CMS-enabled admin systems** allowing dynamic content management, role-based access, and data control.
- Built **normal admin panels** for internal operations such as user management, data monitoring, and reporting.
- Handled complete project lifecycle including requirement analysis, UI/UX implementation, API integration, debugging, and deployment.
- Followed clean architecture, modular design, and scalable coding practices to ensure maintainability.
